Technology

emWave2® is a portable and convenient way to reduce stress, balance emotions and increase performance. Used just a few minutes a day, this simple-to-use technology helps you transform feelings of anger, anxiety or frustration into more peace, ease and clarity to be at your best.

Learn to change your physiology through breathing and focusing on positive emotions. The emWave2 collects pulse data through a pulse sensor and translates the information from your heart rhythms into easy to follow lights on the portable emWave2.

emWave2 is available in charcoal gray or silver blue.

NEW! Now available with HeartCloud™

emWave2 now syncs with HeartCloud giving you the ability to track universally, earn rewards for your efforts and share with others. HeartCloud can be conveniently accessed at any time from your iOS device or computer.

How it Works

As you practice on the go or at your computer you learn to increase your coherence baseline and your ability to take charge of your emotional reactions. Health, communication, relationships and quality of life all improve.

- **NEW!** emWave2® software now includes Inner Balance™ breath pacer screen.
- Use emWave2 on the go as a portable training device and store sessions on your computer and HeartCloud for future comparison and review.
- Run a session while at your computer and watch your coherence through real-time graphs and charts.
- Share with friends, celebrate on social media or work with your health professional.
- Earn award badges for progress and achievement.
